

THE POCHE DAILY RECORD.

FRIDAY, SEPTEMBER 2, 1875.

LOCAL INTELLIGENCE.

ARRIVALS AND DEPARTURES.

ARRIVALS.
BY MRS. WELLS' SALT LAKE LINE.
S. D. McLean. Rev. H. H. Hildreth.

DEPARTURES.
BY MRS. WELLS' SALT LAKE LINE.
S. D. McLean. Rev. H. H. Hildreth.

COUNTY TR. WELLS, FARGO & CO.—The suit mentioned elsewhere as being commenced by the County Commissioners vs. Wells, Fargo & Co. for tax on personal property, the circumstances are as follows: Wells, Fargo & Co. have taken mortgages on a large amount of property that is not really worth the amount for which they are mortgaged, as a consequence the parties holding the mortgages will have to pay the taxes on the property for its full amount and they also are required to pay the tax on the mortgages, which makes them pay taxes on double or nearly double the present valuation of property. This, as will be seen, works a great hardship, and is for the tax on the mortgages that the Express Company are contending.

CHAMPION HUNTER.—The Phillips went a gunning yesterday in the suburbs of Pioche, but only met with indifferent success, owing to the scarcity of game and the treacherous kind of a gun he had. He, however, succeeded in killing a crow and a rabbit. He would have been more successful if both barrels of his gun had not went off at one time, causing the gun to kick on the nose and assisting him to a second on the camp earth, cleared down around for some little time, the game in the meantime took advantage of the accident and decamped for parts unknown. He arrived safe in town about dusk without the aid of an ambulance.

JUSTICE COURT.—Michael Delany appeared before Justice Allen yesterday, at 11 o'clock, to receive his sentence for assault and battery on A. Sulzbacher, to which offense he pleaded guilty, and he fined him one dollar and costs, retaining his own costs and that of the District Attorney, giving Delany until Monday to pay the balance. The Judge said that he was lenient in this case because it was the fault of the outsiders urging the assault and battery on, and he did not think Delany would have committed it if it had not been for them.

J. C. FOSTER has lately had numerous inquiries in regard to the whereabouts of Morimer Fuller, and at what time he would return to Pioche. He says that Judge Fuller ought to be in Pioche now, but where he is or at what time he will return he does not know. We give place to this information to save Judge Foster from being asked a million questions a day as to the points mentioned.

LIGHTNER HOOK AND LADDER COMPANY.—Members of this company, your attention is called to a notice in today's Record of the regular monthly meeting on Saturday, September 12th, at 8 o'clock in the evening, in the back room, up stairs, of E. Hamilton's saloon. The regular monthly business will be in order and members are requested to be on hand punctually.

DIVIDED NOTICE.—By a notice in another column it will be seen that the State Bank of Nevada has again come to the front with a dividend of two per cent., being the earnings of the Bank for the month of August. This speaks well for a home institution. While everything is going to the wall throughout the country our bank is paying a healthy dividend.

PROTECTION HOSE CO.—Your attention is called to a notice in today's Record calling you to attend the regular monthly meeting of your company this evening at 8 o'clock, at the Hose House on Lacour street. Punctual attendance is requested, as the regular monthly business will come before the meeting.

RAYMOND & ELY FOUNDRY.—There will be a big heat at the Raymond & Ely Foundry today, as they intend melting five tons of iron for various castings. The pipe to convey the water from the upper tank is all finished and ready for coupling. It is stronger than that laid in our streets.

THE SISTERS OF MERCY yesterday paid a visit to the Raymond & Ely mine, and had with them a subscription paper, showing that they were collecting for the benefit of the Orphans Home and school at Yreka, Cal. We understand that they met with very fair success.

YOUNG MEN'S SOCIAL CLUB.—The members of this organization are called to meet at Brown's Hall this evening at 7:30 o'clock. All are requested to be present punctually at the time named, as business of importance will come before the meeting.

SUIT COMMENCED.—A suit was commenced yesterday by the County Commissioners of Lincoln county against Wells, Fargo & Co., by attachment, to collect the amount due as taxes on personal property for the year 1875.

RETURNED.—Geo. B. Van Emmon returned yesterday from Utah, and gives an interesting account of his trip to the different portions of that Territory. He has been to Parowan, Panguitch, and numerous other sections of Utah.

WATER has been flowing from the pipe at the corner of Meadow Valley and Main streets for the last two days. Yesterday the ground was opened to get at the spot from which the water was flowing.

The referee case of Quillen & Donahue against John A. Steele was continued by the referee, J. C. Foster, throughout yesterday. Adjourned until today.

These various timbers for the hoisting works of the Meadow Valley mine are arriving very fast, and work to put them in shape will soon be commenced on them.

POCICHE HOSE COMPANY.—Don't forget your regular monthly meeting at the Justice Court this evening at 8 o'clock. Members are particularly requested to be sharp on time at that hour.

BARLEY HORSES.—A pair of barley horses on Main street last evening were the centre of attraction, and when they started at a lively gallop it caused quite a scattering among the crowd.

The following passengers will arrive on this evening's Hamilton stage: Capt. W. M. Bell, D. C. McCloud and Mrs. McCloud.

W. B. WILSON, at Fols & McAlpin's, has just received and has for sale, a large stock of imported cigars. Call and try them.

Rev. R. H. KLINE, pastor of the Episcopal Church of Pioche, arrived in the Salt Lake stage yesterday, and J. W. Wright took the gentleman in charge.

The Salt Lake stage arrived yesterday at 3 o'clock with three passengers for Pioche.

MARTIN TARTER leaves in this morning's Salt Lake stage for San Francisco, on business connected with the Washington & Oreole mine.

Mrs. J. J. HARRIS leaves in this morning's Salt Lake stage for San Francisco, at which place she will remain for some time.

DISTRICT COURT.—The case of the State of Nevada vs. the fiscal mill comes up before the Court this evening.

BULLION SHIPMENT.—Wells, Fargo & Co. shipped yesterday bullion amounting to \$2,068.

BY TELEGRAPH.

SPECIAL TO THE POCHE DAILY RECORD.

Eastern Dispatches.

NEW YORK, Sept. 2.—President Grant of the Western Union Telegraph Co., speaking in connection with the proposition of consolidation with the Atlantic & Pacific Telegraph Co., said that negotiations were made in which the consolidation of all appearances is entirely broken off. He says the statement that it was the intention of the managers of the Western Union Telegraph Co. to advance rates to the West was wholly incorrect. The rates for whose country are based on air line distances, and gradually increase with distance, until they reach \$2.50, which is the maximum price for a ten word message to any part of the United States that is reached by our wires. I have no desire to do a very large business between distant points at the same price for a message that is charged for short distances, but I have great ambition to be able to send messages to any part of the United States at a cost in no case greater than one dollar. The Western Union can reduce rates to the prices mentioned sooner if it can have the whole telegraph business of the country under its control than if its plans are obstructed by the interference of competing lines.

CHICAGO, Sept. 2.—A Washington special says that the Indian Commission appointed to investigate the charges against Secretary Delano, has left St. Louis and telegraph to the Department here that the members will arrive here on the 9th of this month, for the purpose of completing the investigation. From the evidence reported before this committee, it is evident that they can by no possible means make any whitewashing report of Mr. Delano; the corruption of the Indian Department has been too thoroughly ventilated to admit of that. It is believed that the completion of the work of this commission will force Delano to step down and out. A strong effort will be made in the next Congress to get the entire Bureau transferred to the army. The last hope, now that the church has failed to secure the Indians justice, affairs have reached such a condition that nothing but a complete change can remedy the thousand and one crying evils that have grown up under the Delano rule.

NEW YORK, Sept. 2.—A London dispatch says business was quiet at the opening of the market, although American securities were in fair demand and, in most instances, higher.

WASHINGTON, Sept. 2.—Michael Kahn, who was hanged in the almshouse by his wife on Tuesday last, died yesterday.

Today large numbers of the depositors of the Freedman's Savings Bank crowded that institution, expecting a dividend of 25 per cent., having been misled by statements that a dividend would be made on the 1st of September. The depositors were informed that a dividend would not be declared before Christmas. The remaining sum, \$75,000, for that purpose having been realized.

Pacific Coast.

SAN FRANCISCO, Sept. 2.—The feeling on the street this morning is cheerful, even buoyant. The Merchants' Exchange Bank opened its doors at the usual hour. The National Gold Bank and Trust Company report an improvement in the outlook for resumption. The officers are evidently in good spirits. The Board of Brokers will have a meeting this morning, in which some action is expected looking toward the reopening of the Board, though its thought some settlement of the affairs of the Bank of California will be a necessary precursor to the opening of the Stock Boards. The report of a called meeting of the stockholders of the Bank of California proves unfounded. The Directors and friends of the bank are still at work endeavoring to arrange matters, and there is a strong feeling among well informed financiers that arrangements will be made to secure depositors against loss, whether resumption takes place or not. On the whole affairs seem to be looking well and the best of feeling prevails in monetary and commercial circles.

The election yesterday passed off very quietly throughout the State. Returns from the country are at present very meagre, and from the city scarcely anything can be obtained of a reliable nature, but enough is known to clearly indicate that Irwin and the Democratic ticket are elected, probably by a handsome majority. Present advices give Irwin a 928, Phelps 3,577, Bidwell 2,118.

The estimated standing of candidates in counties and precincts where the count is incomplete it is supposed will not greatly modify the above proportion. It is generally conceded that Luttrell has defeated his opponents for Congress in the Third District. In the Second District the fight between Page and Larkin is close. Tattle is running far behind in the Fourth District. Houghton is ahead at present advices, with it is believed, a good show of winning. His supporters are disappointed in the present indications from Santa Clara, but he is running strong in the southern counties, and much better than was expected in Los Angeles. It is pretty much guess work to speculate on the Congressional

vote in this district, but quite a general impression seems to be that Piper is ahead and Swift is badly beaten.

In the San Francisco municipal election Clayton is generally conceded a majority for Mayor, Bryant probably next. The Independents feel hopeful of a good showing on city offices generally. Ellis, Independent, for Chief of Police, is thought to have beaten Crowley.

SANTA BARBARA, Sept. 2.—This county has gone Democratic. The full returns are not yet in.

MARYSVILLE, Sept. 2.—Eleven precincts in Yuba county give Phelps 528, Irwin 711, Bidwell 536. Luttrell will have a large plurality in the county. Bradley, Independent, for Assembly, is probably elected. The county ticket will be divided between the three parties.

SAN FRANCISCO, Sept. 2.—Returns on the Congressional election in the Second District shows the following results, as far as the count is completed: In Alameda county the vote stands Page 50, Tattle 20, Larkin 50. This includes two precincts in Oakland, but nothing else. From the principal towns in Alameda county Page receives 152, Tattle 57, Larkin 175; Calaveras county, Page 107, Tattle 10, Larkin 64; Contra Costa county, Page 254, Tattle 26, Larkin 131; El Dorado county, Page 377, Tattle 120, Larkin 420; Nevada county, Page 134, Tattle 509, Larkin 151; Placer county, Page 377, Tattle 203, Larkin 248; Sacramento, outside of the city, from which nothing definite is known, Page 71, Tattle 73, Larkin 12; San Joaquin, outside of Stockton, Page 151, Tattle 28, Larkin 110; Tuolumne county, Page 124, Tattle 31, Larkin 153. The Congressional returns from all large towns are very meagre, in most cases none being yet given.

Third District.—Lake county gives Denio 40, Luttrell 96, Reed 21. Marin county—Denio 105, Luttrell 94, Reed 60. Plumas county—Denio 83, Luttrell 85, Reed 32. Sierra county—Denio 301, Luttrell 236, Reed 106. Siskiyou county—Denio 105, Luttrell 149, Reed none. Solano county, including one precinct in Vallejo—Denio 295, Luttrell 394, Reed 77. Sonoma county—Denio 551, Luttrell 457, Reed 158. Tehama county—Denio 138, Luttrell 122, Reed 38. Trinity county—Denio 30, Luttrell 30, Reed none. Yolo county—Denio 1, Luttrell 70, Reed 124. Yuba county—Denio 38, Luttrell 48, Reed 5.

Fourth District.—Los Angeles gives Houghton 162, Wigginton 145, Thompson 23. Merced county—Wigginton 115 majority. Monterey county—Houghton 114, Wigginton 198, Thompson 66. San Luis Obispo county—Houghton 50, Wigginton 130, Thompson 11. San Mateo county—Houghton 270, Wigginton 182, Thompson 63. Santa Barbara county—Houghton 51, Wigginton 40, Thompson 9. Santa Clara county—Houghton 143, Wigginton 335, Thompson 92. Stanislaus county—Houghton 331, Wigginton 737, Thompson 71. Tulare county—Houghton 20, Wigginton 42, Thompson 22. San Diego county—Houghton 540, Wigginton 125, Thompson 30. Santa Cruz county—Houghton 354, Wigginton 217, Thompson 298.

In the First District returns are very meagre, but Piper is probably elected. The present talk is that the contest for Mayor is close between Clayton and Bryant, with chances in favor of the latter.

SAN FRANCISCO, Sept. 2.—D. O. Mills authorizes the statement that capitalists interested in the Bank of California will obtain transfers of stocks from holders, relieving the holders from liability, and guaranteeing them against any loss. He will subscribe funds to place the bank in a condition to pay all demands and put it on a sound basis. Should any surplus arise in settlement, it will be credited pro rata to the stockholders. The arrangement will go into effect in a few days.

SAN FRANCISCO, Sept. 2.—The Pacific Mail Company's new line to Australia will commence running October 9th, with the Vasco de Gama, followed by the Colima, monthly service via Honolulu and Auckland to Sydney, with steamer connection thence to Melbourne and Brindisi.

The Court of Inquiry in the case of the scurvy stricken ship Bremer, rendered a decision mildly censuring the captain for not making for Honolulu, attributing the inception of the disease to an insufficient quantity of fresh provisions, and the subsequent mortality to the refusal of the crew to use anti-scurbutics. Eleven witnesses interested on the side of the Captain were examined, and only four colored seamen, from the hospital, out of twenty-two. The Captain's certificate was returned and the decision considered a whitewash.

The city election returns indicate a close fight for Mayor between Clayton, on the Chronicle ticket, and Bryant, the Democratic Ring candidate; it may require official returns to decide it. The State is conceded to Irwin and the Democratic ticket by a large plurality. Later indications are that Wigginton leads Houghton for Congress in the Fourth District. Piper is thought to be ahead in the First District, with a close fight between Swift and Haskin. Luttrell is probably elected in the Third District, and Page and Larkin running close in the Second. There are no returns of Legislative tickets, but the Democrats will undoubtedly have a plurality in both houses, if not a majority.

The recent authoritative assurance of the speedy reopening of the Bank of California has an excellent effect on the business prospects. The Executive Committee of the Board of Brokers to-day appointed a business meeting of the Board for to-morrow to consult on the resumption of business. A great feeling of confidence prevails.

Foreign News.

LONDON, Sept. 2.—The specie in the Bank of England has decreased 300,000 pounds during the past week. Propor-

tion of reserve to liabilities, 53 1/2 per cent.

LONDON, Sept. 2.—Intelligence was received this noon of the collision in the channel between Her Majesty's war vessels Iron Duke and Vanguard, resulting in the sinking of the latter. No lives lost; both are double screw iron ships, armor plated and of 6,034 tons each.

MADRID, Sept. 2.—General Martinez Campos has arrived at Tipholl, on his way to Barcelona, with prisoners captured at Sedurjel. The Bishop captured will be imprisoned in the fortress St. Alente, where he will await the decision of the Government.

LONDON, Sept. 2.—The rate of discount in open market for three months' bills is 1 1/2 per cent., or 3/4 below the banking rate, in consequence of payment of heavy railway dividends.

This is the way the Chicago Times talks about the recent failure:

The suspension of the Bank of California is a godsend for the roaring Wall Street. It was a hard-money establishment doing business on a gold basis, and it will serve the purposes of bottomless shipplaster delusions that the same whether the pretense was true or false. The Bank of California, though pretending to be a banking house based on hard cash, was one of the most treacherous, dishonest gambling shops that ever existed in America. The owners and managers of it were reckless and, generally, lucky speculators, but not bankers. They were men of much "spread" and big diamond shirt-pins; men—like Jay Cooke—who squandered millions in building grand Oriental palaces and preposterously big hotels; who lavished on equipages and entertainments and gilded splurge the revenues of Eastern Princes; who stood ready to put money in unlimited amounts into any and every damnable speculation that advertised a brilliant pyrotechnic programme. As a single instance of the reckless readiness of the head of that concern to squander money, may be mentioned his purchase, at a big price in hard money, of a watch factory situated near this city, which the owners had found to be so large an enterprise that nobody else could be persuaded to take it off their hands. The Bank of California was the grandest, brightest, shiniest, goldenest, much pretensions, inflated, hollow and unsubstantial representation of false principles—even of shipplaster principles—in banking that perhaps ever existed in this country. It is utterly false to say it was conducted on a gold basis, for it was conducted on a gambling basis, and was managed upon the same theory.

If you want any tin ware, sheet-iron and copper ware manufactured or repaired, and also plumbing at very low prices, go to J. J. Halpin & Co., who employ none but first-class workmen.
